

# GRACE Science Data System Monthly Report

## August 2013

Prepared by:  
Frank Flechtner      GFZ      flechtne@gfz-potsdam.de

Contributions by:  
Srinivas Bettadpur      UTCSR      srinivas@csr.utexas.edu  
Mike Watkins      JPL      michael.m.watkins@jpl.nasa.gov  
Gerhard Kruizinga      JPL      gerhard.kruizinga@jpl.nasa.gov

Approved by:  
Byron Tapley      UTCSR      tapley@csr.utexas.edu

### Highlights:

- Due to the switch-off of GRACE ICUs (Instrument Control Units) and MWA (Microwave Assemblies) between August 5 and September 24 in order to reduce the load on the batteries (see L1B Data Processing Section below) the SDS centers have not generated and delivered RL05 Level-2 products for August and/or September 2013 as just 5 days of data in August and 7 days of data in September don't allow a meaningful monthly estimate for these two calendar months. Therefore, the SDS has decided to provide the next Level-2 data product for the calendar month of October 2013. The GFZ weekly solutions and the CSR QL solutions are not affected by this unfortunate phasing of the outage.
- Still missing Level-2 RL05 products for 2002 of the three centers will be provided soon. Please refer to the upcoming newsletters.
- The GRACE Science Team Meeting 2013 will take place 23-25 October 2013 at UTCSR. Information on housing, registration and abstract submission is available at <http://www.csr.utexas.edu/grace/GSTM>.

### Satellite Science Relevant Events:

- Operations in Science Mode suffered from switch-off of ICUs and MWAs (see above and L1B Data Processing Section below).
- The actual mission status can be monitored at [http://www.csr.utexas.edu/grace/operations/mission\\_status/](http://www.csr.utexas.edu/grace/operations/mission_status/).
- The GRACE-1 Brouwer mean orbital elements on August 31, 2013 00:00:00 are as follows:  
A [m]      =      6809112.112  
E [-]      =      0.001135  
I [°]      =      89.026198

- The satellites separation was 203 km on August 30, 2013 with a rate of -1.23 km/d. The next orbit maneuver will be needed (and was performed) mid of September 2013.

### **Level-0 raw data dump reception statistics at DLR ground stations Weilheim and Neustrelitz:**

GRACE-A Housekeeping:	100.0 %	GRACE-B Housekeeping:	100.0 %
GRACE-A Science:	100.0 %	GRACE-B Science:	100.0 %

### **Level-1 Data Processing:**

- Level-1B Release 02 instrument data have been processed at JPL and archived at GFZ ISDC and JPL PO.DAAC. Please refer to the statistics below.
- RL02 Notes:
  - On 2013-08-05 at 13:40 the GRACE-A KBR was powered off to reduce the battery load, which resulted in the interruption of the KBR1B data. The KBR1B data will resume once both KBR systems are powered back on late September 2013.
  - On 2013-08-07 at 13:40 the GRACE-A ACC was powered off to reduce the battery load. ACC1B data will be missing until the ACC is powered back on late September 2013
  - On 2013-08-08 at 11:38 the GRACE-B ACC was powered off to reduce the battery load. ACC1B data will be missing until the ACC is powered back on late September 2013
  - KBR statistics:
    - A) KBR1B product name
    - B) Total arc length with data (hours)
    - C) Number of observations used in residual calculation
    - D) KBR-GPS range residual RMS (cm)
    - E) minimum KBR-GPS range residual (cm)
    - F) maximum KBR-GPS range residual (cm)
    - G) number of continuous segments in the KBR product

Following JPL RL02 L1B products are publicly available (green). June and July 2002 and June 2003 (red) are not provided due to accelerometer problems. For several months a significant number of Level-1 data is not available (blue): January and June 2011 (accelerometer data), May and October 2012 and March and August 2013 (accelerometer and K-Band data). RL00 and RL01 production has stopped with December 2004 and April 2012, respectively. See also corresponding newsletters.

[illegible]

## Level-2 Product Generation and Distribution:

Besides historical RL00 till RL04 time-series (see below) the following RL05 L2 products are presently available to the public (green: available, yellow: in preparation; red: missing due to accelerometer data or accelerometer and K-band data problems):

- **GFZ RL05:** GSM solutions are available for January 2003 until June 2013. Corresponding background GAA, GAB, GAC and GAD products and calibrated errors (GSM\*.txt) have been provided too. Details are listed in the GFZ L2 Release Notes.

GFZ RL05	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												
2008												
2009												
2010												
2011												
2012												
2013												

Additionally to the standard monthly solutions, GFZ now also provides weekly RL05 solutions (aligned to GPS weeks) which contain spherical harmonic coefficients complete up to degree and order 30. Currently, available weekly solutions cover the time span from 2003/01/05 till 2013/07/28. The weekly Level-2 products (GSM + GAX files) can be downloaded at GFZ's ISDC archive. When making your request at the ISDC retrieval pages, please choose "GFZ Potsdam weekly" as "Processing Facility" to obtain these products.

- **CSR RL05:** GSM solutions along with the GAC and GAD background model files are available for the period January 2003 until July 2013. So far no calibrated errors (GSM\*.txt) are available, but will be provided later. Note that CSR has put zeroes in the GSM files in fields that contain the formal errors. Details are listed in the CSR L2 Release Notes. Ongoing updates on CSR RL05 are provided at <http://www.csr.utexas.edu/grace/RL05.html>.

CSR RL05	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

2010												
2011												
2012												
2013												

- **JPL RL05:** GSM solutions along with the GAA, GAB, GAC and GAD background model files and calibrated errors (GSM\*.txt) are available for the period January 2003 until July 2013. Details are listed in the JPL L2 Release Notes.

JPL RL05	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												
2008												
2009												
2010												
2011												
2012												
2013												

- GFZ and CSR have stopped RL04 processing end of April 2012
- JPL has stopped RL04 processing end of January 2012
- GFZ has stopped RL03 processing (Feb 2003 until Jan 2007 available at the archives. For further details refer to the GFZ RL03 release notes for Level-2 products).
- CSR has stopped RL01 processing. (Apr. 2002 until Dec 2006 available at the archives. For further details refer to the CSR RL01 release notes for Level-2 products).
- JPL has stopped RL02 processing (January 2003 until November 2005 available at the archives. For further details refer to the JPL RL02 release notes for Level-2 products).
- TN05/TN07 containing C20 estimates derived from SLR and using GRACE RL04/RL05 standards is periodically updated.

### **Miscellaneous:**

- The Joint GRACE Science Team Meeting 2012 and Final Colloquium of the DFG Special Priority Program SPP1257 "Mass Transport and Mass Distribution in System Earth" took place at the German Research Centre for Geosciences in Potsdam between September 17 and 19, 2012. The proceedings and further information can be found at <http://www.gfz-potsdam.de/portal/gfz/Neuestes/Veranstaltungen/Tagungen+und+Konferenzen/2012/GRACE+Meeting>.
- Lecture material from the 2011 summer school of the DFG Special Priority Program "Mass transport and mass distribution in the system Earth" can be downloaded at [www.massentransporte.de](http://www.massentransporte.de). Before using, please read the agreements on the cover page.
- The following acknowledgement shall be added to any new GRACE related publication (paper, poster etc.): *Acknowledgement: We would like to thank the German Space Operations Center (GSOC) of the German Aerospace Center (DLR) for providing continuously and nearly 100% of the raw telemetry data of the twin GRACE satellites.*
- A list of GRACE related publications which can be sorted by author or date is available at [http://www.gfz-potsdam.de/portal/gfz/Struktur/Departments/Department+1/sec12/projects/grace/grace\\_publications](http://www.gfz-potsdam.de/portal/gfz/Struktur/Departments/Department+1/sec12/projects/grace/grace_publications) (current status: 1094 papers). This list maybe still incomplete. If you are missing a publication please send an e-mail to Frank Flechtner (flechtne@gfz-potsdam.de).
- Science data users are encouraged to submit citations of their own and other works related with GRACE to the bibliography web page implemented at PO.DAAC: <http://podaac.jpl.nasa.gov/grace/bibliography.html>.
